Introduction
Wholesome Wave is the leading national organization focused solely on helping people in need afford fruits and vegetables. We work to make sure every American has access to affordable, healthy food for their family.

We’re based right here in Bridgeport, CT!
In 2015, Case Western released FM Tracks to be pilot tested at FINI launch; In September 2015, Wholesome Wave began 2.0 development and on-boarded our statewide network in Florida.

In 2016, Wholesome Wave released 2.0 to increase ease of use, generate exports, and include vendor reimbursement tools. Expanded use to FINI programs in NYC.

In 2018, 25+ states have entered transactions and vendor reimbursements building a national incentive dataset.

Today, you join our team!
WHAT IS FM TRACKS?

- FM Tracks is a data collection tool that is used to track nutrition incentives at farmers markets.
- We have an App (iPad’s only) and a website.
- You can use this tool to report, download, and analyze data from your market or your network.

Incentives Offered

Select which type of incentive program is operated at your market.

Select "Healthy Food Incentive - Matching Program" if your program provides additional incentive funds to customers who spend federal benefits at the market. Calculate your Matching Amount by dividing the dollar amount of federal benefit spent by the dollar amount of incentive received (e.g. if you distribute $2 for every $5 in federal benefit spent, divide $2 by $5 and multiply by 100 to calculate your Matching Amount as 40%; if you distribute $1 for every $1 in federal benefit spent, divide $1 by $1 to calculate your Matching Amount as 100%).

Select "Health Food Incentive - Discount Program" if your program applies the incentive by administering a discount. Your Matching Amount equals the percentage discount you apply to federal benefit purchases by customers (e.g. if you offer a 50% discount, your Matching Amount is 50%).
